

About Greenfield Manufacturing Incorporated

GMI started chemical manufacturing operations in February 1998 with a clear and simple vision to provide quality products in a responsible and safe manufacturing environment while consistently providing value to our customer base and dedicated workforce alike.

GMI dedication to this vision has attracted a client base that includes Alcan, Alcoa, International Paper, GE-Betz, LanXess, GE-Silicones, Omya, Degussa, Connect Chemicals, Current Incorporated and others. The company is committed to delivering positive results through operational excellence, cost efficiency and disciplined adherence to the highest standards of safety health and environmental care.

The company has long recognized the importance of sound management, high ethical standards and integrity, and will remain committed to this straight forward disciplined model while remaining focused on fostering growth and managing risk. Despite the constantly changing landscape of the specialty chemical business, GMI understands the importance of staying on course while carrying out the company vision.
